

REVISED POLICY - VOL. 34, NO. 2

GRANT FUNDS

It is the objective of the Board of Education to provide equal educational opportunities for all District students. Government agencies, as well as foundations, businesses, and individuals, periodically offer both human and material resources to the District that benefits students and the educational program. Therefore, it is the intent of the Board to consider grant proposals and applications for their potential to enhance the educational opportunities, the educational environment, and the physical and mental growth for each student.

The Superintendent shall review new Federal education legislation and prepare proposals for programs s/he deems would be of aid to the students of this District. The Superintendent shall approve each such proposal prior to its submission, and the Board shall approve all grants resulting from such proposals.

The Board regards available Federal funds of aid to local school districts and communities as a public trust. It forbids the use of Federal monies for partisan political activities and for any use that would not be in ~~accord~~ accordance with Federal regulations and guidelines ~~on discrimination~~.

No Federal funds received by the ~~Board-District~~ shall be used to:

- A. develop or distribute materials, or operate programs or courses of instruction directed at youths, that are designed to promote or encourage sexual activity, whether homosexual or heterosexual;
- B. distribute or aid in the distribution by any organization of legally obscene materials to minors on school grounds;
- C. provide sex education or HIV-prevention education in schools unless that instruction is age appropriate and includes the health benefits of abstinence; or
- D. operate a program of contraceptive distribution in schools.

Grant Proposal Development

- A. All grant proposals must support at least one (1) District goal or priority.
- B. For projects where grant funds will not cover the entire cost of project implementation, additional fund sources must be identified, documented, and approved during the internal review process.

Grant Proposal Internal Review

- A. Each grant proposal shall be reviewed and approved by the Superintendent prior to submission to the funding source.
- () The Superintendent shall present the following proposals to the Board for approval:
 - () government-funded proposals, regardless of the amount;
 - () proposals with budgets exceeding \$_____.00; or
 - () multi-school or District-wide proposals.

Grant Administration

- A. The administration of grants will adhere to all applicable Federal, State, local and grantor rules and regulations, including the terms and conditions of the Federal awards, as well as Board-District policies and administrative guidelines.
- B. The Superintendent is responsible for the efficient and effective administration of grant awards through the application of sound management practices.
- C. The Superintendent is responsible for administering grant funds in a manner consistent with underlying agreements, program applicable statutes, regulations and objectives, and the terms and conditions of the grant award.

- D. The District, in recognition of its unique combination of staff, facilities, and experience, shall employ internal controls, including the organizational and management strategies necessary to assure proper and efficient administration of grant awards.
- E. All Federal funds received by the District will be used in accordance with the applicable Federal law and regulations and the terms and conditions of the Federal award. The Superintendent shall require that each draw of Federal monies be aligned with the District's payment process (whether reimbursement, cash advance or a combination). If funds are permitted to be drawn in advance, all draws will be ~~is~~ as close as administratively feasible to the related program expenditures and that, when restricted, such monies are used to supplement programs and funding and not to supplant or replace existing programming or current funding.
 - () The Superintendent is authorized to sign related documents for grant administration, including documents required for submittal of grant proposals.
 - () Written amendments requiring the Superintendent's signature shall be presented to the Board for approval.
 - () Employee positions established through the use of grant funding ~~() shall () may~~ terminate if and when the related grant funding ceases.
 - () Program reports including but not limited to audits, site visits and final reports shall be submitted to the Superintendent for review and distribution to the Board and other appropriate parties.

Fiscal-Financial Management

The financial management of grant funds shall be in compliance with all applicable Federal, State, local and grantor rules, regulations, and assurances as well as Board District policies and administrative guidelines.

The Superintendent-District shall provide for the following:

- A. Identification, in District accounts, of all grant awards received and expended and the programs under which they were received. For Federal programs and awards, identification shall include the Catalog of Federal Domestic Assistance ("CFDA") title and number, Federal award identification number and year, name of the Federal agency and name of the pass-through entity, as applicable.
- ~~A-B.~~ Accurate, current, and complete disclosure of the financial results of each Federal award or program ~~Federally-sponsored project~~ in accordance with the reporting requirements of the grant.
- ~~B-C.~~ Records that identify adequately the source and application of funds provided for Federally-funded activities. These records must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, expenditures, income and interest and be supported by source documentation. Effective control over and accountability for all funds, property, and other assets in their use solely for authorized purposes.

- D. Effective control over, and accountability for, all funds, property, and other assets. The District must adequately safeguard all assets and assure that they are used solely for authorized purposes.

Further, the District must:

1. establish and maintain effective internal control over the Federal award that provides reasonable assurance that the District is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award;
 2. comply with Federal statutes, regulations and the terms and conditions of the Federal award;
 3. evaluate and monitor the District's compliance with statutes, regulations and the terms and conditions of the Federal award;
 4. take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings;
 5. take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive consistent with applicable Federal, State, local, and tribal laws regarding privacy and obligations of confidentiality.
- E. Comparison of expenditures with budget amounts for each Federal award.

~~C.F.~~ Recordkeeping and written procedures to the extent required as may be required by Federal, State, local and grantor rules and regulations pertaining to the grant award and accountability, including, but not limited to, the following areas: ~~such provisions as may be applicable as cost sharing and matching requirements, budget revisions, audit requirements, reasonableness, allocability, and allowability of costs, procurement, property management and disposition, and payment/repayment requirements.~~

1. cash management
2. allowability
3. conflict of interest
4. procurement
5. equipment management
6. conducting technical evaluations of proposals and selecting recipients
7. compensation and fringe benefits
8. travel

~~G.~~ Disclosure of any potential conflict of interest and all mandatory violation disclosures potentially affecting the Federal award/grant to the Federal awarding agency or pass through agency in accordance with applicable Federal policy.

~~D.H.~~ Insurance coverage for real property and equipment, if applicable, equivalent to such property owned by the District. ~~the coverage obtained for Board owned property of a similar nature.~~

Program Income

Program income means gross income earned by a grant recipient that is directly generated by a supported activity or earned as a result of the Federal award during the grant's period of performance.

It includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under Federal awards, the sale of commodities or items fabricated under a Federal award, license fees and royalties on patents and copyrights, and principal and interest on loans made with Federal award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal statutes, regulations or the terms and conditions of the Federal award, program income does not include rebates, credits, discounts and interest earned on any of them. Additionally, taxes, special assessments, levies, fines and other such revenues raised by a recipient are not program income unless the revenues are specifically identified in the Federal award or Federal awarding agency regulations as program income. Finally, proceeds from the sale of real property, equipment or supplies are not program income.

Unless it has received prior approval to use a different method or the terms and conditions of the grant authorize a different method, the District uses the deduction method of accounting for program income. Under the deduction method, program income is deducted from total allowable costs to determine the net allowable costs. Program income will only be used for current costs unless the District is otherwise directed by the Federal awarding agency or pass-through entity.

Compliance Supplement for Single Audits of State and Local Governments

20 U.S.C. 7906

NEW POLICY - VOL. 34, NO. 2

INTERNAL CONTROLS

The Superintendent shall establish and maintain effective internal controls over Federal awards that provide reasonable assurance that the District is managing all awards in compliance with applicable statutes, regulations and the terms and conditions of the awards. The District will have a process that provides reasonable assurance regarding the achievement of the following objectives:

- A. effectiveness and efficiency of operations
- B. reliability of reporting for internal and external use
- C. compliance with applicable laws and regulations

The internal controls must provide reasonable assurance that transactions are properly recorded and accounted for in order to permit the preparation of reliable financial statements and Federal reports; maintain accountability over assets; and demonstrate compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. The internal controls must also provide reasonable assurance that these transactions are executed in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award that could have a direct and material effect on a Federal award, as well as any other Federal statutes and regulations that are identified in the Compliance Supplement. Finally, the District's internal controls must provide reasonable assurance that all Federal funds, property, and other assets are safeguarded against loss from unauthorized use or disposition.

The District shall:

- A. comply with Federal statutes, regulations, and the terms and conditions of the Federal awards;
- B. evaluate and monitor its compliance with statutes, regulations, and the terms and conditions of the award;
- C. take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings; and

- D. take reasonable measures to safeguard protected "personally identifiable information" (PII) and other information the awarding agency or pass-through entity designated as sensitive or the District considers sensitive consistent with applicable Federal, State, local, and tribal laws and District policies regarding privacy and obligations of confidentiality

PII is defined at 2 C.F.R. 200.79 as "information that can be used to distinguish or trace an individual's identity, either alone or when combined with other personal or identifying information that is linked or linkable to a specific individual."

However, the definition of PII is not anchored to any single category of information or technology. Rather, it requires a case-by-case assessment of the specific risk that an individual can be identified.

- C. "Compliance Supplement" issued by the U.S. Office of Management and Budget; and
- D. Internal control guidance issued by the U.S. Department of Education.

NEW POLICY - VOL. 34, NO. 2

CASH MANAGEMENT OF GRANTS

In order to provide reasonable assurance that all assets, including Federal, State, and local funds, are safeguarded against waste, loss, unauthorized use, or misappropriation, the Superintendent shall implement internal controls in the area of cash management.

The District's payment methods shall minimize the time elapsing between the transfer of funds from the United States Treasury or the Ohio Department of Education (ODE) (pass-through entity) and disbursement by the District, regardless of whether the payment is made by electronic fund transfer, or issuance or redemption of checks, warrants, or payment by other means.

The District shall use forms and procedures required by the grantor agency or pass-through entity to request payment. The District shall request grant fund payments in accordance with the provisions of the grant. Additionally, the District's financial management systems shall meet the standards for fund control and accountability as established by the awarding agency.

The Superintendent is authorized to submit requests for advance payments and reimbursements at least monthly when electronic fund transfers are not used, and as often as deemed appropriate when electronic transfers are used, in accordance with the provisions of the Electronic Fund Transfer Act (15 U.S.C. 1693-1693r).

When the District uses a cash advance payment method, the following standards shall apply:

- A. The timing and amount of the advance payment requested will be as close as is administratively feasible to the actual disbursement for direct program or project costs and the proportionate share of any allowable indirect costs.
- B. The District shall make timely payment to contractors in accordance with contract provisions.

- C. To the extent available, the District shall disburse funds available from program income (including repayments to a revolving fund), rebates, refunds, contract settlements, audit recoveries, and interest earned on such funds before requesting additional cash payments.
- D. The District shall account for the receipt, obligation and expenditure of funds.
- E. Advance payments will be deposited and maintained in insured accounts whenever possible.
- F. Advance payments will be maintained in interest bearing accounts unless the following apply:
 - 1. The District receives less than \$120,000 in Federal awards per year.
 - 2. The best reasonably available interest-bearing account would not be expected to earn interest in excess of \$500 per year on Federal cash balances.
 - 3. The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.
 - 4. A foreign government or banking system prohibits or precludes interest bearing accounts.

- G. Pursuant to Federal law and regulations, the District may retain interest earned in an amount up to \$500 per year for administrative costs. Any additional interest earned on Federal advance payments deposited in interest-bearing accounts must be remitted annually to the Department of Health and Human Services Payment Management System ("PMS") through an electronic medium using either Automated Clearing House ("ACH") network or a Fedwire Funds Service payment. Remittances shall include pertinent information of the payee and nature of payment in the memo area (often referred to as "addenda records" by Financial Institutions) as that will assist in the timely posting of interest earned on Federal funds. Pertinent details include the Payee Account Number (PAN) if the payment originated from PMS, or Agency information if the payment originated from ASAP, NSF or another Federal agency payment system.

2 C.F.R. 200.305

NEW POLICY - VOL. 34, NO. 2

COST PRINCIPLES - SPENDING FEDERAL FUNDS

The Superintendent is responsible for the efficient and effective administration of grant funds through the application of sound management practices. Such funds shall be administered in a manner consistent with all applicable Federal, State and local laws, the associated agreements/assurances, program objectives and the specific terms and conditions of the grant award.

Cost Principles

Except where otherwise authorized by statute, costs shall meet the following general criteria in order to be allowable under Federal awards:

- A. Be necessary and reasonable for proper and efficient performance and administration of the Federal award and be allocable thereto under these principles.

To determine whether a cost is reasonable, consideration shall be given to:

- 1. whether a cost is a type generally recognized as ordinary and necessary for the operation of the District or the proper and efficient performance of the Federal award;
- 2. the restraints or requirements imposed by such factors as sound business practices, arm's length bargaining, Federal, State, local, tribal and other laws and regulations;
- 3. market prices for comparable goods or services for the geographic area;
- 4. whether the individuals concerned acted with prudence in the circumstances considering their responsibilities; and

5. whether the cost represents any significant deviation from the established practices or Board of Education policy which may increase the expense.

While Federal regulations do not provide specific descriptions of what satisfies the "necessary" element beyond its inclusion in the reasonableness analysis above, whether a cost is necessary is determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the District can demonstrate that the cost addresses an existing need, and can prove it.

When determining whether a cost is necessary, consideration may be given to whether:

- a. the cost is needed for the proper and efficient performance of the grant program;
- b. the cost is identified in the approved budget or application;
- c. there is an educational benefit associated with the cost;
- d. the cost aligns with identified needs based on results and findings from a needs assessment;
- e. the cost addresses program goals and objectives and is based on program data.

A cost is allocable to the Federal award if the goods or services involved are chargeable or assignable to the Federal award in accordance with the relative benefit received.

- B. Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the Federal award.
- C. Be consistent with policies and procedures that apply uniformly to both Federally-financed and other activities of the District.
- D. Be afforded consistent treatment. A cost cannot be assigned to a Federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.
- E. Be determined in accordance with generally accepted accounting principles.
- F. Be representative of actual cost, net of all applicable credits or offsets.

The term "applicable credits" refers to those receipts or reductions of expenditures that operate to offset or reduce expense items allocable to the Federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the State relate to the Federal award, they shall be credited to the Federal award, either as a cost reduction or a cash refund, as appropriate.

- G. Be not included as a match or cost-share, unless the specific Federal program authorizes Federal costs to be treated as such.

H. Be adequately documented:

1. in the case of personal services, the Superintendent shall implement a system for District personnel to account for time and efforts expended on grant funded programs to assure that only permissible personnel expenses are allocated;
2. in the case of other costs, all receipts and other invoice materials shall be retained, along with any documentation identifying the need and purpose for such expenditure if not otherwise clear.

Selected Items of Cost

The District shall follow the rules for selected items of cost at 2 C.F.R. Part 200, Subpart E when charging these specific expenditures to a Federal grant. When applicable, District staff shall check costs against the selected items of cost requirements to ensure the cost is allowable. In addition, State, District and program-specific rules, including the terms and conditions of the award, may deem a cost as unallowable and District personnel shall follow those rules as well.

Cost Compliance

The Superintendent shall require that grant program funds are expended and are accounted for consistent with the requirements of the specific program and as identified in the grant application. Compliance monitoring includes accounting for direct or indirect costs and reporting them as permitted or required by each grant.

Determining Whether a Cost is Direct or Indirect:

- A. Direct costs are those costs that can be identified specifically with a particular final cost objective, such as a Federal award, or other internally or externally funded activity, or that can be directly assigned to such activities relatively easily with a high degree of accuracy.

These costs may include: salaries and fringe benefits of employees working directly on a grant-funded project; purchased services contracted for performance under the grant; travel of employees working directly on a grant-funded project; materials, supplies, and equipment purchased for use on a specific grant; and infrastructure costs directly attributable to the program (such as long distance telephone calls specific to the program, etc.).

- B. Indirect costs are those that have been incurred for a common or joint purpose benefitting more than one (1) cost objective, and not readily assignable to the cost objectives specifically benefitted, without effort disproportionate to the results achieved. Costs incurred for the same purpose in like circumstances shall be treated consistently as either direct or indirect costs.

These costs may include: general data processing, human resources, utility costs, maintenance, accounting, etc.

Federal education programs with supplement not supplant provisions must use a restricted indirect cost rate. In a restricted rate, indirect costs are limited to general management costs. General management costs do not include divisional administration that is limited to one (1) component of the District, the governing body of the District, compensation of the Superintendent, compensation of the chief executive officer of any component of the District, and operation of the immediate offices of these officers.

The salaries of administrative and clerical staff should normally be treated as indirect costs. Direct charging of these costs may be appropriate only if all of the following conditions are met:

1. Administrative or clerical services are integral to a project or activity.
2. Individuals involved can be specifically identified with the project or activity.
3. Such costs are explicitly included in the budget or have the prior written approval of the Federal awarding agency.
4. The costs are not also recovered as indirect costs.

Where a Federal program has a specific cap on the percentage of administrative costs that may be charged to a grant, that cap shall include all direct administrative charges as well as any recovered indirect charges.

Effort should be given to identify costs as direct costs whenever practical, but allocation of indirect costs may be used where not prohibited and where indirect cost allocation is approved ahead of time by the Ohio Department of Education ("ODE") or the pass-through entity (Federal funds subject to 2 C.F.R. Part 200 pertaining to determining indirect cost allocation).

Timely Obligation of Funds

Obligations are orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

The following table illustrates when funds are determined to be obligated under the U.S. Department of Education regulations:

If the obligation is for:

- A. Acquisition of property - on the date which the District makes a binding written commitment to acquire the property.
- B. Personal services by an employee of the District - when the services are performed.
- C. Personal services by a contractor who is not an employee of the District - on the date which the District makes a binding written commitment to obtain the services.
- D. Public utility services - when the District receives the services.
- E. Travel - when the travel is taken.
- F. Rental of property - when the District uses the property.
- G. A pre-agreement cost that was properly approved by the Secretary under the cost principles in 2 C.F.R. Part 200, Subpart E - Cost Principles - on the first day of the project period.

Period of Performance

All obligations must occur on or between the beginning and ending dates of the grant project. This period of time is known as the period of performance. The period of performance is dictated by statute and will be indicated in the Grant Award Notification ("GAN"). As a general rule, State-administered Federal funds are available for obligation within the year that Congress appropriates the funds for. However, given the unique nature of educational institutions, for many Federal education grants, the period of performance is twenty-seven (27) months. This maximum period includes a fifteen (15) month period of initial availability, plus a twelve (12) month period for carryover. For direct grants, the period of performance is generally identified in the GAN.

In the case of a State-administered grant, obligations under a grant may not be made until the grant funding period begins or all necessary materials are submitted to the granting agency, whichever is later. In the case of a direct grant, obligations may begin when the grant is, unless an agreement exists with ODE or the pass-through entity to reimburse for pre-approval expenses.

For both State-administered and direct grants, regardless of the period of availability, the District shall liquidate all obligations incurred under the award not later than ninety (90) days after the end of the funding period unless an extension is authorized. Any funds not obligated within the period of performance or liquidated within the appropriate timeframe are said to lapse and shall be returned to the awarding agency. Consequently, the District shall closely monitor grant spending throughout the grant cycle.

2 C.F.R. 200.403-.406, 200.413(a)-(c), 200.430(a), 200.431(a), 200.458
C.F.R. 200.474(b)

NEW POLICY - VOL. 34, NO. 2

TIME AND EFFORT REPORTING

As a recipient of Federal funds, the District shall comply with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Section 200.430 of the Code of Federal Regulations requires certification of effort to document salary expenses charged directly or indirectly against Federally-sponsored projects. This process is intended to verify that compensation for employment services, including salaries and wages, is allocable and properly expended, and that any variances from the budget are reconciled.

Compensation for employment services includes all remuneration, paid currently or accrued, for services of employees rendered during the period of performance under the Federal award, including but not necessarily limited to wages and salaries. Compensation for personal services may also include fringe benefits, which are addressed in 2 C.F.R. 200.431 Compensation-fringe benefits. Costs of compensation are allowable to the extent that they satisfy the specific requirements of these regulations, and that the total compensation for individual employees:

- A. is reasonable for the services rendered, conforms to the District's established written policy, and is consistently applied to both Federal and non-Federal activities; and
- B. follows an appointment made in accordance with the District's written policies and meets the requirements of Federal statute, where applicable.

Time and Effort Reports

The reports:

- A. are supported by a system of internal controls which provide reasonable assurance that the charges are accurate, allowable, and properly allocated;
- B. are incorporated into the official records of the District;

- C. reasonably reflect the total activity for which the employee is compensated by the District, not exceeding 100% of the compensated activities;
- D. encompass both Federally assisted and other activities compensated by the District on an integrated basis;
- E. comply with the District's established accounting policies and practices;
- F. support the distribution of the employee's salary or wages among specific activities or cost objectives if the employee works on more than one (1) Federal award, a Federal award and non-Federal award, an indirect cost activity and a direct cost activity, two (2) or more indirect activities which are allocated using different allocation bases, or an unallowable activity and a direct or indirect cost activity.

The District will also follow any time and effort requirements imposed by the pass-through entity to the extent that they are more restrictive than the Federal requirements. The Payroll Office is responsible for the distribution, collection, and retention of all employee effort reports. Individually reported data will be made available only to authorized auditors.

Reconciliations

Budget estimates are not used as support for charges to Federal awards. However, the District may use budget estimates for interim accounting purposes. The system used by the District to establish budget estimates produces reasonable approximations of the activity actually performed. Any significant changes in the corresponding work activity are identified by the District and entered into the District's records in a timely manner.

BOARD OF EDUCATION
SCHOOL DISTRICT

FINANCES
6116/page 3 of 3

The District's internal controls include a process to review after-the-fact interim charges made to a Federal award based on budget estimates and ensure that all necessary adjustments are made so that the final amount charged to the Federal award is accurate, allowable, and properly allocated.
