

B.O.S.S. Job Descriptions

B.O.S.S. job descriptions have been updated to address practical and legal issues on job descriptions primarily for employees working with our special education students. They were developed jointly by B.O.S.S. and administration. They use improved language to describe job duties and do a more accurate job of identifying what duties are “essential” and which duties fall into the category of “other.”

The number of different job descriptions has been determined by the way we have to post different job positions with B.O.S.S. Hence it was not possible to do much streamlining with these updates.

These job description have been reviewed and approved by legal counsel Smith Peters Kalail Co., LPA. Board approval of these job descriptions gives them a higher legal standing should any disagreement emerge.
